Ibu detachable blanket's Care & Washing Instructions

Congratulations you have chosen your very own personalised Ibu – I am made in 3kg strips to help you to add or subtract weight easily. This is also good when washing me.

You do not have to be gentle with me I have been crafted very well.

I am made of **100% cotton** and I **DO NOT** like Hot water. **I shrink** if I am washed in Hot Water.

Washing Instructions 100% cotton:
2 x 3kg strips at a time on a Cold Permanent Press Cycle

You can put me in the dryer on the **lowest heat setting** and I will dry very quickly, or you can peg me out on the line – I just love sunshine.

I come with a separate cover so you will need to **check the washing instructions** for that particular fabric/fur. If it is 100% cotton, you will have to wash it on the **Cold Permanent Press Cycle** or if you chose Faux Fur, please do not put it into the washing machine. Always check the care instructions. The **100% cotton cover** needs the **lowest heat setting** for drying in a dryer.

Drying Instructions 100% cotton
Lowest heat setting on your dryer – better still if it's a fine day peg me out on the line

Should any of my stitching come apart –contact my maker on the Contact's page on the website www.ibublanet.nz and she will make arrangements to stitch me up again.

I have a **12 month guarantee on my manufacturing and a 60 day money back guarantee** if I am not working for you, but, I really would like to stay.

I really look forward to spending a **loooooooooong** time with you.
